# AMIT OMPRAKASH BEHERA

B. Tech (Computer Science and Engineering)
Email: amitbehera223689@gmail.com
Phone: +91-7846959767

## Career Objective

To start my career in a challenging and learning-focused environment where I can use my knowledge of programming, web development, and machine learning. As a fresher, I am willing to learn new technologies and take responsibility for my work. I want to gain practical experience through real-world projects, improve my skills step by step, and contribute to the team and organization while building a strong career in the IT industry.

## Training / Certification

- Data Analytics – CTTC (Ministry of MSME, Govt. of India), Python, SQL, Excel, Tableau
- Full Stack Web Development – Odissi Tech Global Solutions- Python, Html, CSS, JS, SQL
- Digital Designing with UI/UX (Grade A) – MCA PL, UI/UX design, wireframing, prototyping

## Technical Skills

| | |
|---|---|
| Programming Languages: | Python, Java |
| Web Development: | HTML, CSS, Full Stack Web Development |
| Machine Learning: | Basic Machine Learning, Scikit-learn |
| Data Analysis: | Pandas, NumPy, Matplotlib, Power Bi, Excel |
| Database: | MySQL |
| Tools: | VS Code, Git/GitHub |

## Soft Skills

● Communication ● Leadership ● Time Management ● Teamwork

## Internship Project Details

**Data Analyst Intern :-** Developed a Machine Learning Model that predicts student scores based on number of hours they've studied. Developed Skills - Python, Machine Learning, Data Analysis

**Full Stack Web development:-** Gained practical knowledge of frontend and backend development using Python, HTML, CSS, JavaScript, and databases. Worked on web application development, debugging, and basic database management.

## Project Details

**Corona Doses Analysis |** Python, SQL, Excel, Power Bi

- Collected and cleaned COVID-19 vaccination dose data from public health datasets.
- Analyzed trends in first dose, second dose, and booster coverage across regions and time periods. Used Excel/Python/SQL to perform statistical analysis and data visualization.
- Created dashboards and summary reports to present vaccination progress and insights

**Amazon Sales Analysis |** Python, SQL, Excel, Power Bi

- Analyzed Amazon sales data using Python, Pandas, and visualization techniques.
- Cleaned the dataset and identified sales trends, top-performing products, categories, and overall sales performance through charts and reports..

**Netflix Data Analysis Dashboard |** Python, SQL, Excel, Power Bi

- Designed an interactive Netflix data analysis dashboard using Tableau and Excel to explore content trends, genre popularity, release patterns, and regional distribution.
- Performed data cleaning and transformation in Excel and created dynamic Tableau dashboards with thers and charts to support datadriven insights.

**E-Commerce Website|** HTML, CSS, JavaScript ,Python

- Developed a responsive e-commerce website with product browsing, cart, and user-friendly navigation.
- Used HTML, CSS, JavaScript, and Python for website development.
- Implemented basic product and user data management

**Library Management|** HTML, CSS, JavaScript ,Python

- Developed a Library Management System to manage books, student records, book issue/return, and availability.
- Used Python and database concepts to organize and manage library information efficiently.

## Educational Qualifications

**Gandhi Institute Of Excellent Technocrarts, Ghangapatna, Bhubaneswar |**B.Tech, Computer Science & Engineering |2023-2027|CGPA: 8.10

**Paramananda Higher Secondary School Of Science, Salabani, Anandapur |** +2 Science |58%

**Patalasuni High School, Janghar, Anandapur |** 10th |76%

## Achievements and Extracurricular activities

- Gained hands-on experience by building practical projects through “Build Your Own AI Application” initiatives and bootcamps.
- Presented “Leaf Disease Detection and Prediction using ML” at SURAVI-2K25, GIET, and received recognition for the project.
- Completed UI/UX Design training from MCAPL with Grade A.
